WORLD DAY OF THE SICK

February 11

The Sacrament of Anointing of the Sick is a ritual of healing appropriate not only for those in immediate danger of death but also for those suffering from physical, mental, or spiritual sickness. When a priest confers this Sacrament, the individual receives from the Holy Spirit the Graces of strengthening, peace and courage to overcome the difficulties that go with the condition of serious illness or the frailty of old age. Also, the Sacrament formally unites the suffering of the individual with that of Christ's Passion and confers a Grace that contributes to the sanctification of the whole Church.

PRAYER for HEALING

Healing and merciful God, you walked among us, brought healing, and looked with compassion on the most vulnerable. Help us not to reject our human vulnerability, but see it as a condition that welcomes the need and kindness of another person among us. May our families and faith communities become true “field hospitals” that manifest concrete acts of caring and compassion which knows how to pause, approach, heal, and raise up. Give us grace and courage so that we may never be indifferent to suffering and may always bring your healing ministry to our world. Amen

UPDATE ON SACRED HEART CATHEDRAL ENERGY-EFFICIENCY RENOVATIONS

The Cathedral basement insulation retrofit is nearing completion. For example, the new exterior basement insulation is now covered with plywood and the plan is to install exterior siding over it this Spring. The basement east wall was insulated from the inside, and it has already been refinished with new gyprock and repainted.

Installation of a new CYO Hall entrance landing and reconstruction of part of the stone wall by Steele Street are planned. Some sidewalk areas around the building that had to be removed to install the new insulation will be replaced with new sidewalks. The soil around the basement wall will then be regraded and replanted with grass to return it back to its original contours and appearance. (Seeding the grass may be done after the wall insulation is complete.)

Few weeks ago, we applied to the Community Development Fund for some financial support for the next stage of the project, which is to complete the exterior insulation retrofit on the main floor walls of the cathedral. For this work, we already have some funding approved from the Energy Solutions Centre. **For the balance of the funding, we are relying on donations from you as members of the parish.**

The donations received from you to date have been generous, and are greatly appreciated. With your continued financial support, we hope to have enough funding to complete the next stage of the project which includes installation of a new energy-efficient heating and ventilation system.

Thank you for all your donation and may God be abundant with his blessings to you and your family.
